CCA to offer wi-fi access for panel meeting

FROM THE CAPTIVA CIVIC ASSOCIATION:

Dear CCA Members & Captiva Community,

Do you need access to the internet? Come to the CCA! With support of FISH of SanCap, the CCA is pleased to announce that we are able to provide an internet hotspot for community members. Drop-in hours to access the WiFi are currently Wednesday, Thursday, and Friday, 11 am-3 pm at the Captiva Civic Center, 11550 Chapin Lane (starting today, Nov. 2).

Bring your own device (laptop, iPad, phone). People accessing WiFi will be able to do so inside the CCA (Civic Center) hall, which is air conditioned and tables and seating provided. If you have questions, please contact CCA Executive Director Emily Ankerson at emily.ankerson@ccacaptiva.org.

Also, the Captiva Community Panel meeting on Tuesday, Nov. 8, will be projected in the CCA Hall for any Captiva community members to come and participate/view the meeting. The meeting starts at 9 am, so it is our goal to open our doors at 8:45 (please understand there may be unanticipated traffic conflicts as I will be coming from off-island). If you are planning to attend, email me at emily.ankerson@ccacaptiva.org so I'll know how many to expect.

Nearly 200 wildlife sightings reported on Sanibel & Captiva

FROM SCCF:

Thank you to everyone who has submitted reports of wildlife on Sanibel and Captiva — we've received almost 200 sightings! Species reported span all taxonomic groups present on the islands before the hurricane. This data will be vital as our scientists continue to study which of our island species and ecosystems have been negatively affected or unaffected by Hurricane Ian.

A Discussion on Wildlife Sightings So Far: SCCF Wildlife & Habitat

Management Director Chris Lechowicz gives an update on the many wildlife sightings that have been reported on our barrier islands since Hurricane Ian, including dozens of bird species, mammals, insects, and amphibians and reptiles.

"Biologists had a solid understanding of what existed on the islands before the hurricane," Lechowicz said. "The storm surge and high wind's effects on the islands will be studied for many years, and we also need as much information as we can gather on what wildlife survived the hurricane."

Hurricane Ian debris cleanup program for private and commercial property

Island residents can now apply for debris removal on private and commercial property through the Hurricane Ian Debris Cleanup Program managed by the Florida Division of Emergency Management. This debris removal service includes displaced and abandoned vehicles, vessels, and other titled property from qualifying private and commercial properties, as well as waterways throughout Lee County. More information and the application may be accessed at this website: <https://iandebriscleanup.com/>.

Submit an application if you (1) own a property in Lee County and would like to request the removal of the debris on that property or (2) if you lost a vehicle, vessel, or other titled property due to Hurricane Ian and would like to report the vehicle, vessel or other titled property missing.

For assistance with the application or for general questions, please call FDEM's Hurricane Ian Debris Cleanup Hotline at (850) 961-2002 or send an email message to IanDebrisCleanup@em.myflorida.com.

Please note, completing an application does not guarantee eligibility for debris removal or the return of your displaced title property.
